

PLACEMENT GUIDE FOR THE LEDWAY® LUMINAIRE BY CREE®

This guide is designed to apply to the LedWay® LED Billboard Luminaire. These are recommended to achieve optimal coverage.

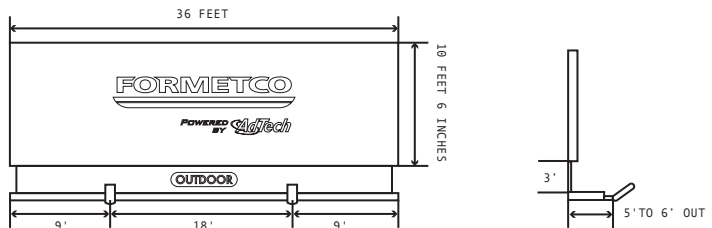

14' x 48' BULLETIN

Recommended: Install each fixture approximately 3 feet down from the base of the copy and 5 feet from the face. Space each fixture according to the diagram to the right.

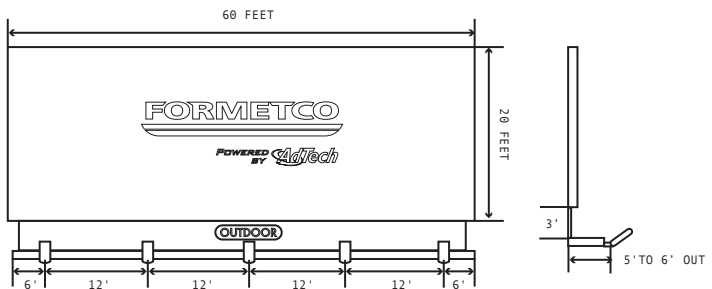

10' 6" x 36' BULLETIN

Recommended: Install each fixture approximately 3 feet down from the base of the copy and 5 feet from the face. Space each fixture according to the diagram on the right.

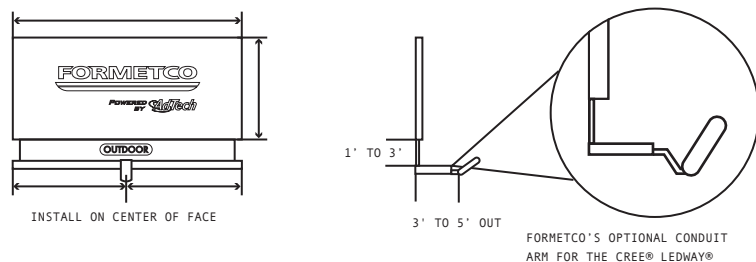

20' x 60' BULLETIN

Recommended: Install each fixture approximately 3 feet down from the base of the copy and 5 feet from the face. Space each fixture according to the diagram on the right.

POSTER PANEL

Recommended: Install each fixture approximately 1 to 3 feet down from the base of the copy and 3 to 5 feet out from the face. Space one single fixture in the center of the face. Use the optional conduit arm to lower the fixture further from the copy.

TOP MOUNTING FIXTURE

This guide is **not intended** for top mounting these fixtures. This fixture is available for top mounting, but will require the optional top mounting kit. Sold separately.
